CHRIST COLLEGE, UMEIT RI BHOI DISTRICT

Institutional Development Plan (IDP)

Placement cell: Christ College operates within a region with distinct employment patterns; the placement cell will adopt a dual strategy: training and mentoring students for competitive national corporate careers while simultaneously equipping them for other public sector, administrative and developmental opportunities.

Strategic Directives:

To create active alumni engagement to bring them back for guest mentorship sessions and placements, mentoring and leads

Form institutional partnerships with (BDO) Block Development offices, Agricultural Research Centre, NGO's, government offices and Industrial partners offering structured field placements in scheme documentation, data handling and community administration.

Soft-skills workshops, vocational skills, internships in rural area development, and community-based organisations linking students to agricultural, research and local business ventures across Ri-Bhoi district and tie-ups with local administrative, banking, and non-profit sectors focusing on rural employability, local governance by collaborating with the local Block development offices/SHGs and local village administrations, livelihood trainings, entrepreneurship, etc.

Introduce short-term certificate courses on soft skills, data management, and resume building, etc.

Establish a dedicated cell providing Coaching and resource libraries, maintaining active training and counselling drives for state civil service examinations. MPSC, DSC, etc. and central recruitment boards.

Corporate Campus drives, signing internship MOUs with other government offices, non-governmental offices, universities, and industries, etc.
